---

## JOBS

Android App Development

SWC IIT Guwahati (Virtual)

Oct 2019 - Present

Our team at SWC is responsible for developing all the android applications needed inside the campus also fixing and upgrading existing once.

---

## PROJECTS

App developer

Dec 2019 - Jan 2020

Created an Android application for Alcheringa (Cultural Festival at IIT Guwahati). The is used to register a new team, view the location of various events, update them by regular notifications, and many other dynamic features that make it useful.

## App developer at SWC

Nov 2019 - Nov 2019

[https://play.google.com/store/apps/details?id=com.swc.onestop&hl=en\\_IN](https://play.google.com/store/apps/details?id=com.swc.onestop&hl=en_IN)

Responsible for fixing bugs in the campus application (oneStop) and implement a notification feature in the app. After implementing that feature daily app visit of users increased by two times.

## Web Development

Aug 2019 - Oct 2019

<https://github.com/mohan2106/vote4usWEB>

Created a website using javascript and firebase for listing all the politicians of any locality and mention their works and full profile. People can view their profile and rate them according to their work they did and could comment anonymously.

## Web Development

Sep 2019 - Oct 2019

Worked on a partially completed website and implemented invoice generation for shopkeepers by collecting customer's email and sending the invoice on their respective email id. Uses fpdf for invoice pdf generation, PHP and MySQL for database.

## App developer

Mar 2019 - Aug 2019

<https://github.com/mohan2106/DOCMED>

Was fully responsible for end to end front end back end android app development. You could search the doctor and book appointments, Cancel and reschedule it and give a review once the visit is done.

Android studio and firestore is used for project.

## Match score display android applicatin

Mar 2019 - Mar 2019

<https://github.com/mohan2106/CodingClubAndroidAppCOdeForGame>

Created a cricket match score viewer using cricbuzz API. You could see recent scores of different matches.

## App developer

Dec 2019 - Present

<https://github.com/mohan2106/anonymousChat>

Full responsible for an Anonymous chatting application for campus where depressed students can share their problems with campus counsellors and mentors without revealing their identity. Used SQLite for local backup of chats with mentors.
